Objective

Detail-oriented and data-enthusiastic economics student eager to apply analytical and problem-solving skills in a real-world data setting. Seeking to contribute to the DataSprout team in Berlin as a Junior Data Analyst Intern, while expanding hands-on experience with Python, SQL, and Tableau.

Education

BSc in Economics and Business Administration

Copenhagen Business School – Expected Graduation: June 2026

- GPA: 10.4 / 12
- Relevant Courses: Statistics for Economics, Data Management, Econometrics, Python for Business Analytics

Skills

Tools & Languages:

- Python (pandas, numpy, matplotlib, seaborn)
- SQL (PostgreSQL & MySQL)
- Tableau & Excel (pivot tables are my superpower)
- Git & GitHub basics

Soft Skills:

- Fast learner & problem solver
- Great communicator (Team Player™)
- Organized, with slight spreadsheet obsession

Experience

Data Intern – Copenhagen CleanTech Cluster

Feb 2024 – May 2024

- Assisted in analyzing survey results on green energy startups using Python and Excel
- Created weekly dashboards in Tableau summarizing environmental impact data
- Worked closely with senior analysts and participated in weekly strategy meetings

Student Assistant (Research) – Department of Economics, CBS

 Sep 2023 – Jan 2024

- Cleaned and prepared large public datasets for economic inequality research
- Conducted basic regression analysis using R and Python
- Helped present findings in an internal workshop (with charts, of course!)

Projects

Spotify Listening Trends Dashboard

- Analyzed 6 months of personal Spotify data
- Built interactive dashboard in Tableau showing top artists, mood shifts, and more
- Shared it online and got... 3 compliments from friends (and 1 from mom)

"Ice Cream & Income" Analysis

- Final class project exploring the (questionable) correlation between ice cream sales and household income across EU countries
- Used Python and public Eurostat data

Languages

- Danish (Native)
- English (Fluent)
- German (Basic conversational – Duolingo streak: 97 days 🐥)

Fun Facts

- Spreadsheet nerd with a soft spot for conditional formatting
- Runner-up in my high school's math rap battle (yes, that was a thing)
- Loves working with people *and* numbers – the ultimate social analyst!
